

Cederbos Organic Nature

The elegant Cederbos Nature Organic Rooibos Tea is made of high quality natural organic rooibos leaves.

100% organic, certified by European and US agencies. This organic rooibos tea blend is naturally caffeine-free and rich in antioxidants, free of artificial additives and sweeteners, and can be enjoyed at any time of the day by adults and children. Enjoy this full-bodied sugar-free tea hot or iced, with or without milk.

Made in South Africa and of single origin, our rooibos grows at the foot of the majestic Cederberg Mountains, in the beautiful Cederberg region of the Western Cape.

The company Cederbos was founded by Corné van der Westhuizen, following the footprints of his dad, Dr Frans van der Westhuizen, who owns the first certified organic rooibos tea farm in South Africa. Working in the rooibos fields and at the processing facility with his dad, Corné learns from a young age that during the natural fermentation process the bees are attracted to the rooibos leaves that are rich in colour and aroma. The bee became the emblem of Cederbos to symbolise our work ethics based on sustainability and respect of nature. Cederbos strives to select the highest quality rooibos leaves for its rooibos tea blends and the Cederbos team follows the guidance of the bees when harvesting the rooibos leaves for packaging.

Our organic teas are GMO-free, pesticides-free, and herbicides-free.

Our tea bags are biodegradable, unbleached and plastic-free.

In our effort to preserve our environment, for every tree that is cut down to produce our tea boxes a tree is planted in replacement.

Ingredients: Pure Certified Organic Rooibos leaves (*Aspalathus linearis*)

Health Benefits: caffeine-free, sugar-free, rich in antioxidants, anti-inflammatory properties, and anti-aging properties.
